

## QUALITY & RELIABILITY ENGINEER (M/F/D)

JOB ID 191352

Our client is a leading company (Joint Venture) in cutting edge sensing technology with over 4 decades of experience in environmental sensor technology. Its solution portfolio covers products for air quality sensing, humidity and temperature sensing, ultrasonic flow sensing, time-to-digital converters and pressure sensor development. Its products will be sold within well-known global industry partners, covering Automotive, Telecommunication, Industrial Control and Home Appliance companies all over the world.

To strengthen the team of our client at his site in **Eindhoven (NL)** we are currently looking for a **Quality & Reliability Engineer (m/f/d)**.

### Key Responsibilities

- Quality Engineering responsibility for existing products
- Developing a qualification strategy for new products
- Planning, supervising and coordinating of qualification execution in cooperation with reliability test laboratories
- Performing failure analysis and 8D reporting
- Initiation and implementation of containment / corrective actions
- Driving and managing quality and reliability issues, as well as continuous improvement in all areas of interest
- Representing Quality in internal and external meetings and events, leading Quality-related communication with customers

### Your Profile

- Master of Science in Electronics, Physics, Material Sciences or equivalent areas
- +5 years of relevant experience in the electronics / semiconductor industry
- Know-how of quality tools/processes (PPAP, FMEA's, 8-D reporting, Quality Standards; especially automotive Quality standards: VDA6.3, IATF 16949 and QS9000)
- Excellent analytical problem-solving skills, communication skills and high self-organizing skills
- Good IT / software capabilities (especially Excel, knowledge in statistic software) is an advantage
- Basic knowledge of semiconductor IC design / manufacturing process / Test and sensor calibration
- Affinity with product development and industrialization
- Fluent English spoken and written, other language skills are an advantage

If the described job definition is interesting for you and you fulfil the necessary requirements, we are glad to receive your job application via mail (**b.salzmänn@ah-recruitment.com**).
